12.5 Procedures for Addressing a Harassment Complaint

a. Filing a Complaint

A director or excluded employee may file a harassment complaint by contacting Campus Security. The complaint may be verbal or in writing. If the complaint is made verbally, Campus Security will record the details provided by the director or excluded employee.

The director or excluded employee should be prepared to provide details such as what happened; when it happened; where it happened; how often and who else was present (if applicable).

Complaints should be made as soon as possible but no later than within one year of the last incident of perceived harassment, unless there are circumstances that prevented the director or excluded employee from doing so.

Campus Security may choose to tell the person that the harassment complaint has been made against, in writing, that a harassment complaint has been filed. The letter will also provide details of the allegations that have been made against him or her.

Every effort will be made to resolve harassment complaints within 30 days. Campus Security will advise both parties of the reasons why, if this is not possible.

If either party to a harassment complaint believes that the complaint is not being handled in accordance with this policy, he or she should contact the UVSS Personnel Committee.

b. Mediation

Wherever appropriate and possible, the parties to the harassment complaint will be offered mediation prior to proceeding with a harassment investigation.

Mediation is voluntary and confidential. It is intended to assist the parties to arrive at a mutually acceptable resolution to the harassment complaint.

The mediator will be a neutral person, agreed upon by both parties. The mediator will not be involved in investigating the complaint.

Each party to the complaint has the right to be accompanied and assisted during mediation sessions by a person of their choosing.

c. Investigation

If mediation is inappropriate or does not resolve the issue, a harassment investigation will be conducted. All investigations will be handled by an individual who has the necessary training and experience and who is a neutral third party with no perceived connection to the UVSS.

The investigator will interview the person who made the complaint, the person the complaint was made against and any witnesses that have been identified. All people who are interviewed will have the right to review their statement, as recorded by the investigator, to ensure its accuracy.

The investigator will prepare a report that will include:

- a description of the allegations;
- the response of the person the complaint was made against;
- a summary of information learned from witnesses (if applicable); and
- a decision about whether, on a balance of probabilities, harassment did occur.

This report will be submitted to the Board of Directors. Both parties to the complaint will be given a copy.

d. Substantiated Complaint

If a harassment complaint is substantiated, the Board of Directors will decide what action is appropriate.

Remedies for the director or excluded employee who was harassed may include: an oral or written apology; compensation for lost wages; compensation for any lost employment benefits such as sick leave; and compensation for hurt feelings.

Corrective action for the individual found to have engaged in harassment may include: a reprimand; a suspension; a transfer; a demotion; and/or dismissal.

Both parties to the complaint will be advised, in writing, of the decision.

PART 13: EXCLUDED PERSONNEL

13.1 Administration & Management Philosophy

a. Preamble

The UVSS is a values-based, mission driven non-profit social enterprise that is founded on the principle of equity and exists for the purpose of advancing the interests of students. The Society's core principles, values, vision, and mission are outlined in the current UVSS Strategic Plan. Excluded personnel shall ensure that the core principles and progressive values of the UVSS outlined in the current strategic plan are observed and enacted in all aspects of the Society's operations – including its policies and procedures, program development, community relations, human resource management, and strategic planning.

Excluded personnel shall facilitate cooperation among students by overseeing the operation of services and businesses which supplement the learning experience, provide for human needs, and which develop a sense of community between students and with other members of society.

The financial independence, self-sustainability and social mission of the Society's business units is dependent on excluded personnel fostering a culture of innovation, creativity and teamwork among department managers and all unionized staff in order to increase the value of these business units to students.

The performance of excluded personnel is critical to the Society fulfilling its current mission. Because the individuals in these roles directly influence the Society's success and financial health, the Board shall set standards and objectively and fairly evaluate the performance of its excluded personnel against these standards.

The Society shall seek to recruit, hire, and retain excluded personnel who possess strong skill sets in leadership, community and team building, business management, strategic thinking, and vision. Utilizing this skill set, excluded personnel shall support the Board of Directors in pushing the Society towards being a recognized leader in the non-profit sector.

b. Excluded Personnel

The following personnel are considered excluded personnel:

- i. General Manager
- ii. Executive Director

13.2 Compensation

a. Preamble

The Society is committed to establishing and maintaining competitive salaries for excluded managers, reflective of current market conditions. Salary ranges shall be determined by comparing to similar positions in the non-profit sector and the marketplace, as determined by survey data provided by an independent compensation analyst at least every three years.

As a values-based organization founded on the principle of equity, the Society is committed to an equitable compensation system that is inclusive of its excluded *and* unionized employees. The Society supports pay fairness from the lowest student classification to the General Manager and Executive Director. The Society does not support a system of compensation where there is clear inequity between the lowest paid employee and the highest paid employee.

b. Salary Increases

In keeping with the values of equitable compensation and workplace fairness, the Society may provide salary increases to excluded managers within a fiscal year which are reflective of the increase in the current cost of living allowance (COLA).

Corrective adjustments in addition to COLA can be made if it is justified by the job market and is supported by survey data provided by an independent compensation analyst conducted within the last three years. The magnitude of the percentage increase shall be reflective of the manager's performance review. For example, in the case of an exceptional review, the Personnel Committee may consider an increase that brings the individual to a salary leading the market. In the case of a performance review indicating underperformance, additional funding should be allotted to professional development instead of being allocated to a salary increase.

All changes to excluded management salaries shall follow the following process:

- a. Personnel Committee shall recommend changes to compensation which will be presented to the Board of Directors while in camera.
- b. While in camera, the Board of Directors shall review the most recent market analysis conducted by a third party and performance review.
- c. After the recommended changes to compensation are presented in camera, the chair of Personnel Committee shall motion that the Board of Directors approves the changes to compensation.
- d. The motion to approve the changes to compensation shall require the support of a majority of the Board of Directors present and voting.
- e. The changes to compensation shall be entered into the minutes as an appendix if the motion of the Board of Directors passes.
- f. If the changes to compensation are not approved, any record of the proposed changes shall remain confidential and shall not be entered into the minutes.
- g. Except for in exceptional circumstances as detailed below, changes to excluded management salary shall only occur in March or April and will take effect in the fiscal year following the changes.

In exceptional circumstances, Personnel Committee may recommend a change in compensation to the Board of Directors when an excluded manager's existing job duties are altered or the volume of work increased. This request must be accompanied with a change to the excluded manager's job description or the minutes of a motion which requested that an excluded manager take on additional duties. Motions for exceptional additional compensation shall require a two-thirds [2/3] majority vote of the Board of Directors.

c. Bonuses

The Society does not support the practice of incentivizing staff through regular/annual performance or retention bonuses. In the non-profit sector, bonuses can be counter-productive – the best practice of reward is through fair compensation. Retention of excluded personnel will be achieved through competitive compensation and benefits; flexibility; and a progressive workplace environment.

The Society does not support bonuses for the following reasons:

- i. The Society is a non-profit social enterprise. Under the social enterprise model, the purpose of profits from business units is to be funnelled back into services and resources for students.

- ii. Revenue development to achieve financial success is a team effort, involving *all* staff and board members. If excluded personnel are rewarded for dollars raised or dollars made, staff and directors are likely to react negatively when excluded personnel get what is essentially “a piece of the action.”
- iii. The drive to attain short-term and possibly less substantive outcomes can undermine more meaningful purposes if that’s where the reward lies.
- iv. Excluded personnel who lead non-profits are driven by a great extent by the mission and values of the Society – not the money. Bonuses have the potential to degrade the drive that is fuelled by passion.

13.3 Benefits

a. Preamble

The Society is committed to establishing and maintaining a competitive benefits package for excluded personnel, reflective of current market conditions. Benefits shall be determined by comparing to similar positions in the non-profit sector and the marketplace, as determined by survey data provided by an independent compensation analyst.

In keeping with the Society’s stated intent to support fairness in compensation for all of its employees, the benefits package for excluded employees shall be comparable to benefits provided to permanent unionized employees.

b. Excluded Personnel Benefits

Excluded personnel shall receive the following benefits:

- i. Extended health benefits
- ii. Dental plan
- iii. Group life insurance plan
- iv. Long-term disability plan
- v. UVic Pension Plan

All benefits provided to excluded employees shall be recorded in this policy. The Society shall not provide benefits that are not recorded in this policy and are not explicitly recorded in the Society’s budget or audited financial statements.

13.4 Vacation Entitlement & Office Holidays

- a. Excluded personnel shall be entitled to 20 working days of vacation upon being hired. This shall increase by 1 working day per year of continuous service to a maximum of 31 working days. The entitlement shall be prorated when service is less than full-time.
- b. Excluded personnel may carry over a maximum of 10 unused vacation days at the end of the calendar year. Excluded personnel cannot be paid out for unused vacation days.
- c. When an excluded employee is on vacation and a paid general holiday occurs during that period, the holiday shall not count as a day of vacation.
- d. It is the responsibility of the Personnel Committee to ensure that excluded employees have the opportunity to take their basic vacation entitlement annually. The Personnel Committee shall ensure that vacation is scheduled consistent with work requirements,

and whenever possible in response to an excluded employee's preferences for vacation periods.

- e. In the event of termination, vacation entitlement shall be calculated up to the final date of employment. The Personnel Committee shall determine whether any unused entitlement is granted as vacation days prior to the termination date or granted as pay in lieu. Where vacation used exceeds vacation entitlement on the date of termination, the employee shall pay back the value of the excess days.
- f. The Personnel Committee shall keep records of actual vacation days used by excluded employees, along with the dates of commencement and completion.
- g. Excluded employees shall be entitled to office holidays as observed in the Collective Agreement.
- h. Excluded managers shall ensure that vacation does not overlap in a way that would substantially interfere with the normal functions of the University of Victoria Students' Society.

13.5 Leave

a. Parental Leave

For excluded personnel who are pregnant, or whose partner is pregnant, or who legally adopt a child, the society shall grant parental leave. A minimum of four (4) weeks notice is required by the society for parental leave to be granted. The length of leave shall be consistent with government legislation.

The Society shall grant excluded personnel fifty percent (50%) of their pay for up to twenty-six (26) weeks during parental leave.

b. Bereavement Leave

An employee shall be granted up to 5 days paid bereavement leave when deemed necessary.

c. Sick Leave

- i. Excluded personnel shall be granted paid leave when unable to work due to illness to a maximum of 24 days per year.
- ii. If an employee's inability to perform her or his duties due to illness extends beyond one week the matter shall be referred to the Personnel Committee and upon that committee's approval, shall grant leave of absence with pay for up to one month.
- iii. If the illness continues beyond the initial leave of one month then the leave of absence with pay shall be extended as required, by the Personnel Committee, for an additional period or periods not exceeding three months.
- iv. If at the end of four months' absence because of illness, the employee's physician considers recovery from illness not likely within a further two months, application shall be made for the disability insurance benefit to commence in the normal manner after six months' sick leave.

- v. If the employee is still absent because of illness after six months, and the disability benefits have been approved, the Personnel Committee shall post the position in question as a temporary employment position.
- vi. Probationary excluded personnel shall be entitled to sick leave at the rate of 2 days per month for full-time service.

d. Excluded Management Personal Leave

Excluded management shall be entitled to personal leave with pay for the following reasons and corresponding lengths of time:

- iv. Child care of other child related responsibilities including and immediate family member or immediate family related responsibilities eight (8) working days.
- v. Canadian citizenship leave one (1) working day.
- vi. Under severe weather conditions, where unsafe to drive or no transit – one (1) day, or longer if transit is not running.

This policy should be updated from time to time to align it with the personal leave provided to permanent unionized staff. The Personnel Committee shall keep records of personal leave used by excluded employees.

e. Leave of Absence Without Pay

- i. Excluded personnel may apply for and may, in certain circumstances, be granted leave of absence without pay. Such leave of absence is not granted automatically.
- ii. Applications for leave of absence greater than one month must be made in writing to the Personnel Committee stating both the reason for the requested leave and its duration.
- iii. Leave of absence without pay will be granted only if, in the opinion of the Personnel Committee, such absence would not substantially interfere with the normal functions of the University of Victoria Students' Society.
- iv. Requests for leave without pay will not normally be granted when the employee has unused vacation entitlement.
- v. During a period of approved leave of absence without pay, an employee may continue any or all of his/her Society benefits by assuming the total cost thereof. Contributions may be paid in advance or on the normal monthly basis.

13.6 Professional Development

- a. The University of Victoria Students' Society recognizes its responsibility for providing excluded employees with regular opportunities to upgrade relevant skills through professional development.

- b. All professional development activities which involve either time taken from regular work hours or an expense to the Society, must be approved by the Personnel Committee in advance.
- c. For each excluded employee, \$2,000 per year shall be allocated for professional development, which would include but not be limited to seminars, workshops, conferences, retreats, and courses. Personnel Committee agrees to review and evaluate all requests for professional development when the cost would exceed the budgeted amount.
- d. Travel expenses, accommodation and per diems may be charged against an excluded employee's annual professional development allocation, at the discretion of Personnel Committee.
- e. Excluded employees are expected to spend at least 35 hours on professional development per year.

13.7 Travel Expenses

- a. The Society will compensate employees other than those paid by commission for reasonable travel expenses incurred in the conduct of approved Society business.
- b. The Society shall pay excluded employees per diems when working outside the Capital Region and shall include travel days. The amount paid shall be \$30.00 per day when meals are provided and \$60.00 per day when meals are not provided.
- c. Employees may request a travel advance. If actual expenses are less than the advance, the employee must promptly pay the difference to the Society.
- d. The use of a private automobile on Society business is to be reimbursed at a rate consistent with the collective agreement for unionized staff. Transportation costs claimed should represent no more expense than that required travelling by the most direct route and the cheapest public transport practical.

13.8 Evaluation

a. Purpose of the Performance Review Process

The performance review process gives both the Board and the excluded managers the opportunity to review the excluded managers' agreed-upon goals and outcomes for the past year and to set goals and objectives for the coming year. It provides a mechanism for discussing opportunities for improving performance and achieving the Society's goals and objectives.

Excluded managers play a significant leadership role as the Board's agents and the Society's success is linked directly to how excluded managers are performing their jobs. Evaluating excluded managers is an integral component of the Board's responsibilities.

b. Responsibility & Training

- i. The Personnel Committee, under the leadership of the Director of Finance and Operations, shall conduct an ongoing annual performance review for the General Manager and the Executive Director.
- ii. All directors and SUB staff may submit information to the individual or group responsible for a position's evaluation at any time.
- iii. Members of the Personnel Committee shall be given training from an external professional within six weeks of being elected to the committee at the commencement of the board term. This training shall be in performance evaluation and the effective management of non-profit excluded personnel.

c. Process & Timeline

- i. Every year Personnel Committee shall execute a complete review of the excluded managers. The annual performance review process shall commence no later than July 1. The results of this review shall be communicated to excluded managers and presented to the Board in April.
- ii. The internal review process shall follow the processes outlined in the UVSS Performance Program for Excluded Management.
- iii. The Personnel Committee shall meet regularly with excluded managers to ensure that their performance is aligned with their job descriptions, the strategic plan, and the priorities of the current Board.
- iv. The Personnel Committee shall give a report and solicit input on excluded managers' performance to the Board of Directors on a semesterly basis. Ideally these reports shall be given at the first board meetings in September and December, with a final summary review to be presented to the Board no later than the first board meeting in April.
- v. The General Manager and Executive Director shall give a detailed verbal report on the finances and operations of the Society to the Board of Directors on a semesterly basis. Ideally these reports shall coincide with the Personnel Committee's semesterly performance reports to the Board.
- vi. Every three years, an external performance and compensation review of excluded personnel shall be conducted. This shall be a full 360 review which shall collect feedback and input from all directors, staff, and stakeholders. External reviews must begin no later than January 15.

d. Relationship to the Strategic Plan

The performance review process shall be linked directly to the Society's strategic plan and, in particular, the goals and measurable objectives for the planning period. Specific goals or key result areas shall be identified at the Society's annual board orientation. These goals/result areas should be based on those set out in the strategic plan. The performance review will focus on achievement in these areas, rather than just day-to-day operational matters and the job description.

e. Appraisal

Since the success of the organization is often largely related to the successful performance of the excluded managers in implementing the Society's goals and objectives, it is important to obtain input from a variety of key stakeholders. Therefore, a

360° performance review approach shall be used, whereby input is sought and received from the Board, the excluded managers' direct reports (department managers, board staff, etc.), and a self-assessment prepared by the excluded managers. All input shall be treated with the utmost confidentiality. Although it can be time-consuming, the 360° performance review approach is invaluable as a way of identifying both areas for improvement and strong performance.

f. Overcoming Bias/Personality Conflict

The criteria for evaluating excluded managers shall be agreed upon in advance, and shall be based on achieving the Society's goals and objectives. Criteria shall be objective and measurable. By doing this, it removes much of the danger of blatant subjectivity, personal bias or personality conflicts from entering into the process, as the focus is on organizational goals and measurable outcomes, rather than individual characteristics.

g. Mutual Goal Setting

The excluded managers' performance reviews shall be linked to the Society's strategic plan, and in particular, its objectives and strategic priorities in the annual business plan(s). Specific performance goals for an excluded manager shall be negotiated at the beginning of each evaluation period between the excluded manager and the Personnel Committee. This shall be put in writing and signed by both parties. Goals can either be very specific with numerical targets, or more general, depending on the type of goals being discussed and the organization itself. Performance goals for an excluded manager shall not be determined by the Personnel Committee without the excluded manager's agreement.

h. Addressing Performance Issues in a Positive Fashion

If any performance issues arise in the course of the performance review process, care shall be taken by both the excluded manager and the Personnel Committee to discuss these in a constructive, positive, solution-focused manner. Receiving negative feedback is difficult for all employees, regardless of their level within an organization; the person or persons giving feedback on performance problems should always try to keep the balance in being helpful and ego-enhancing. The language used is important, and care must be taken to ensure that what is said is constructive and helpful.

13.9 Corrective Action

Both the Board and the excluded managers invest a great deal of effort, energy and emotion into the employment relationship. All human beings fall short at some point, and rather than terminating the relationship, there is considerable wisdom and fairness in trying to better the situation through corrective action.

The Board shall also be mindful of its legal responsibilities. In most situations, employees must be informed of how their performance is deficient, the expectations of the employer, and given reasonable time to remedy the situation. The only exceptions are where the conduct of an excluded manager is so egregious that immediate termination is legally justified (e.g., proven theft of property or sexual harassment of staff). Additionally, managers have a right to a congenial work environment where their privacy is respected. As such, the board should respect their obligation to maintain the privacy of personnel by only discussing these matters in camera. When in doubt, the Director of Finance and Operations shall consult qualified legal counsel with knowledge of current employment law.

a. Concerns with performances or conduct

Except for in the instance of organizational restructuring, the decision to terminate will generally be based on concerns with performance or conduct. Personnel committee is responsible for looking into these concerns and initiating the performance improvement process, in addition to the progressive discipline process.

- i. All persons shall submit all complaints in writing to be investigated by Personnel Committee before corrective action is taken. The complaint shall include specific instances of underperformance and/or unacceptable action taken by the manager, dates and times where possible, and the contact information of the complainant.

b. Performance Improvement Process

Once individuals' concerns with an excluded manager are validated, a Performance Improvement Plan shall be created by Personnel Committee and the excluded manager to help the manager improve work performance, and formalize the process for doing so.

- i. Performance Improvement Plans shall focus on short-term goals for improvement. The plan will identify specific steps, such as additional training; expected outcomes; the improvement in performance is defined in measurable terms; and the timeframe to achieve the improvement (e.g., the result must be reached within six months, at which time another review will occur in the specific area).
- ii. Throughout the timeframe agreed to, Personnel Committee shall monitor and provide feedback to the excluded manager.
- iii. If performance does not improve in the time-frame agreed to, it may be extended (by mutual consent in writing); the progressive discipline process may be initiated (if inappropriate conduct warrants it); and/or (depending upon the seriousness of the performance circumstances), the manager may be dismissed.

c. Progressive Discipline Process

The Progressive Discipline Process is initiated when an excluded manager conducts themselves in a manner that goes against one or more of the UVSS policies or values (i.e., misconduct).

- i. Personnel Committee must first determine the magnitude of the issue (e.g., minor, moderate, or severe). In doing so, Personnel Committee must consider the seriousness and/or frequency of the issue, the manager's work and conduct history, and the impact of the manager's actions on the society. This will determine what step of the Progressive Discipline Process is initiated.
- ii. The first step in the Progressive Discipline Process is a verbal warning. Personnel Committee shall make it explicitly clear to the excluded manager that it is a verbal warning. The date, time, and nature of the incident will be recorded and placed in the excluded manager's personnel file. Focus should be placed on preventing the incident from occurring again.
- iii. The second step in the Progressive Discipline Process is a written warning. This will occur if the manager's performance and/or conduct has failed to improve within a reasonable time period. In a meeting with the manager and the chair of personnel committee, the manager should be given a letter with an explanation of both the reasons for the warning and the consequences of not improving in the area or correcting the problem within a

specified period of time.

- iv. Suspension shall only be used when an investigation of a severe misconduct is underway and the details of the issue are not fully known or clear. In this instance, time off should be with pay.
- v. Upon investigation, termination may be determined.

d. Non-Voluntary Termination

Non-voluntary termination with cause shall be recommended to the Board of Directors by Personnel Committee. Non-voluntary termination shall be determined through the Performance Improvement or the Progressive Discipline Process and be consistent with the terms and conditions of the excluded management contract (if applicable). With cause means either the manager engaged in egregious behavior (e.g. theft, sexual harassment, etc.) or that the manager did not meet expectations during the last step of the progressive discipline process. Without cause means that there are no performance related or substantiated concerns with the conduct of the manager and therefore proper notice needs to be provided consistent with the terms and conditions of the excluded manager's contract (if applicable).

- i. The first step in the termination process is the decision to terminate. This shall be determined by Board of Directors upon the recommendation of Personnel Committee through the performance improvement or progressive discipline process. Once the decision has been made, a letter shall be created to notify the manager of their termination with the input of an outside HR company or legal counsel.
- ii. The second step in the termination process is a termination meeting between the excluded manager and Personnel Committee. This shall be a private meeting to review the reasons for termination as outlined in the letter.
- iii. The final step in the termination process is communication of the excluded manager's departure from the organization. The termination of the excluded manager must not be communicated to anyone outside of the Board of Directors and Personnel Committee until the termination meeting has been completed. When communicating the manager's departure from the society, it is imperative that no specific details why the manager has been terminated are communicated.

Learning Disability Assessment Fund Allocation

1. Purpose

A Learning Disability Assessment (LDA) may be required for a student when registering with the Resource Centre for Students with a Disability (RCSD) to request academic accommodations due to significant barriers. To better support students who encounter barriers to reaching academic goals, the learning disability assessment fund is an extra-contractual arrangement between the UVSS and Studentcare that utilizes the Health Plan Reserve Fund to allow students to access Learning Disability Assessments (also called Psycho-Educational Assessments).

2. Qualification Criteria

Students who are approved for student loans may qualify for public funding that covers the full cost of the Assessment.

Where public funding is not available, such as for international students or students who do not qualify for student loans, the UVSS Extended Health and Dental Plan will reimburse up to 80% of the cost, to a maximum of \$3,000 annually.

This benefit will only cover testing for students in the Plan and is not available to dependants covered under the Plan.

3. Process

Students must contact the RCSD to determine if a Learning Disability Assessment is needed.

Once students have discussed their situation with the RCSD and determined that a Learning Disability Assessment is required, students can choose to see an

external regular psychologist in a private practice or have the testing conducted by RCSD.

If testing is conducted by RCSD, RCSD will perform the first level screening for any student that has not been previously tested for a learning disability. If there is reasonable evidence from the first level screening that a student needs further testing, they may proceed through further testing at the discretion of RCSD. Any student that has previously been tested may immediately proceed to full screening at the discretion of RCSD.

4. Funding Allocation

a. Covering the Costs

Students must submit their Learning Disability Assessment claim under their psychology benefit first, even if they have already exhausted the covered psychology maximum for the policy year.

Once they have received reimbursement (or been denied reimbursement) through their psychology coverage, they shall submit their claim to RCSD under the Learning Disability Assessment benefit, which will reimburse up to 80% of the remaining cost, to a maximum of \$3,000 annually.

b. External Screening

In the case where a student pays upfront for testing by an external psychologist:

- i. The first portion of the cost up to \$700 shall be reimbursed to the student as part of their regular plan psychology benefit, unless the student has already claimed the maximum psychology benefit, in which case 80% of the cost of the first level screening will be covered by the LDA Fund.
- ii. The remaining balance of the 80% cost shall be reimbursed by the UVSS LDA Fund.

c. RCSD First Screening

In the case where a student only undergoes the first level screening:

- i. The cost of the first level screening shall be covered under the student's regular Plan psychology benefits either directly to the student (if upfront payment) or directly to RCSD (if covered under their own Learning Assessment Fund) unless the student has already claimed the maximum psychology benefit, in which case 80% of the cost of the first level screening will be covered by the LDA Fund.

d. RCSD Full Screening

In the case where RCSD covers the upfront cost of a student's testing:

- i. The first portion up to \$700 shall be reimbursed directly to RCSD as part of the student's regular Plan psychology benefit

- ii. The remaining balance of the 80% cost shall be reimbursed by the UVSS LDA Fund

5. Dispersing Funds from the LDA Fund

- a. RCSD will put forward the request for funding, indicating the cost without the student's identifying information.
- b. The Director of Finance and Operations and the Executive Director will sign off on the form and submit a check request to Accounting for processing

6. Approval, Processing & Confidentiality:

Claims for this benefit will be reviewed and approved on a case-by-case basis by the UVSS, maintaining the strictest privacy and confidentiality.

The Society recognizes racism is not simply a form of discrimination that robs members of full participation in the society. Racism is contingent on the establishment and assertion of a centre based on the implicit code of whiteness, which is embedded with patriarchal, heterosexist and capitalist constructions of gender, sexual orientation and ability. The university is reflective of these constructions. Therefore, the Society must be committed to a genuine and critical anti-racism strategy that shifts the focus and onus away from people of colour and Aboriginal people and moves towards focus on the centre.

The Society supports an environment that protects and promotes the dignity, worth, and human rights of every person and supports mutual respect and cooperation between individuals.

The Society is committed to supporting an environment free from intentional or unintentional racism for all society members and employees.

Furthermore, the Society acknowledges the need to be anti-racist and;

8. Lobbying the University Administration, Senate, and Board of Governors to develop policy and procedures to effectively deal with racism that incorporates the following:
 - a. Ongoing review and evaluation of university curriculum, programs, policies, legislation, services, and methods of service delivery with a view to removing inequities and biases.

Discrimination: The practice or act of making distinctions between people based on such characteristics as ethnicity, nationality, language, faith, gender, disability, or sexual orientation, which leads to the inequitable treatment of individuals or groups. There are two types of discrimination - direct and systemic

Direct discrimination: An overt action, taken on the basis of an individual's or group's response to characteristics of culture, ethnicity, nationality, language, faith, gender, disability, or sexual orientation is meant to bring about the inequitable treatment of individuals or groups that have one or several of these characteristics.

Systemic discrimination: Differential treatment through seemingly neutral policies or practices that are reinforced by institutional structures and power and that result in the inequitable treatment of members of particular groups. Systemic discrimination practices are those that have an adverse on one group and are not clearly related to job performance or job requirements.

Dominant/Majority Group: The group of people in a given society that is largest in number or that successfully shapes or controls other groups through social, economic, cultural,

political, or religious power. In Canada, the dominant group is composed of White, English-speaking, middle-to-upper income, Christian Canadians.

Ethnic Group: A community maintained by a shared heritage, culture, language, or religion; a group bound together by ties of cultural homogeneity, with a prevailing loyalty and adherence to certain beliefs, attitudes, and customs.

Ethnocentrism: A condition characterized by pre-occupation with one's own cultural or national group and belief in the superiority one's own race and culture.

Eurocentrism: Exclusive or almost exclusive attention to events and peoples originating in Europe, as well as consideration of information from the perspective of White people who came to North America from Europe.

Harassment: A persistent and continuing communication of negative attitudes, beliefs, or actions toward an individual or group, with the intention of disparaging that person or group. Forms of harassment include name-calling, jokes and slurs, graffiti, insults, threats, discourteous treatment, and written and physical abuse.

Institutional Racism: Exercise of notions of racial superiority by social institutions through their policies, practices, procedures, and organizational culture and values, either consciously or unconsciously. Institutional racism results in the unequal treatment of, or discrimination against, individuals or groups with non-dominant identities.

People of Colour: A term which applies to all people(s) who are not seen as White by the dominant culture. This would include Aboriginal, Black, Chinese, South Asian, South East Asian, Filipino, and Latin American Canadians. The term originates in the United States, and is one attempt by Black and brown people to name themselves, not as "non-whites," "minorities," "visible minorities," or "ethnics," but as people with a positive identity.

Prejudice: Prejudging individuals or groups of people based on negative and incorrect information. Prejudiced attitudes are used to rationalize unequal treatment of people, which reinforces stereotypes and prejudices.

Racialization: A process through which people of colour and Aboriginal people are marginalized. This concept recognizes that "race" is not a real biological category, but is used as a social category that reproduces oppressive relations. Racism operates through racialization.

Racism: A set of mistaken assumptions, opinions, and actions resulting from the belief that one group is inherently superior to another. Racism refers not only to social attitudes toward ethno-cultural minority groups, but also to social structures and actions that limit, exclude, discriminate against, and oppress such individuals and groups. Racism may be present in organizational and institutional structures and programs, as well as in the attitudes and behaviour of individuals.

Stereotype: A false or generalized conception of a group of people that results in the unconscious or conscious categorization of each member of that group, without regard for individual differences. Stereotypes are sustained by the tendency to perceive selectively only those pieces of new information that correspond to the conception.

Whiteness: An implicit code of norms that is based on and reflective of power relations within society. Whiteness does not simply refer to the colour of a person's skin, as such individuals may carry varying levels of whiteness depending on their relative positions within the structures of the society in which they find themselves.

PART 4: ANTI-VIOLENCE

4.1 Harm Reduction

- a. UVSS believes part of creating a more inclusive community, that is committed to anti-violence initiatives, is recognizing the importance of centering Harm Reduction. Harm Reduction refers to an anti-stigma approach that works towards decreasing harm in all ways; particularly in safer sex and safer use of substances, by providing services, tools, and skills to individuals.

4.2 Sexualized Violence

a. Preamble

The Society recognizes that sexualized violence is anything that disrespects your sexual being. This can look like comments, leering, intimidation, coercion, expectations, discrimination, non-consensual touching, sexual assault, sexual harassment etc. We also recognize that we currently live in a "rape culture" that normalizes and glorifies sexualized violence, creating a sense of entitlement to other people's physical, emotional, and sexual well beings without consent. As a Society we have a role in ensuring that post-secondary education is accessible for all students, but education is not accessible if students on this campus do not feel safe. Therefore the Society must be committed to developing structures that centre the lived experiences of survivors while simultaneously creating educational and preventative programming and supports for those who have caused harm.

b. Framework

Furthermore the Society recognizes that;

- i. Rape culture and sexualized/gender-based violence are deeply rooted in the ongoing colonial legacies of these unsundered and uncaded territories that we occupy. The Society recognizes that we must approach our advocacy with an anti-colonial framework and engage with communities who are disproportionately affected by this violence.
 - Furthermore we recognize that sexualized and gender based violence disproportionately targets indigenous folks, and therefore we must involve the voices and communities of those who are most affected by this violence. We therefore also support a National Inquiry into Missing and Murdered Indigenous Women.

- ii. Sexualized and Gender-Based Violence affects folks who hold vulnerable identities such as queer, trans or gender-variant folks, people of colour, people with disabilities, and people from a low socioeconomic background. We recognize that our advocacy must be intersectional and involve the voices and communities of those who are most affected by these violent structures.
- iii. As an organization the society has a role in pressuring governing bodies such as the university administration and the provincial government to dismantle harmful power structures which often recreate harm.
- iv. The Society supports that the university have a stand-alone policy that outlines how the administration handle sexual-assault cases, which supports and centres the experiences of survivors and which includes education, prevention and supports for those who have cause harm.

c. Legislation

The Society supports binding provincial legislation that ensures that all institutions in the province engage in a process of collaborative stand-alone sexual assault policy development.

Furthermore, we recognize that these issues do not happen in isolation. Therefore we support the development of a robust and holistic approach to addressing sexualized violence in this province through the development of a sexualized-violence task force, and an Action Plan on Sexualized Violence in British Columbia.

d. Education and Prevention Programs

The UVSS supports the continuation of education and prevention programs, specifically in collaboration with the Anti.Violence.Project and the University through the Let's Get Consensual Campaign:

The UVSS will run a Let's Get Consensual campaign that will:

- i. Involve a collaborative and coordinated, university-wide approach in order to reach the greatest number of people with the most effective use of available resources and knowledge
- ii. Collaborative decision-making that is reflective of each partner's mandate
- iii. Apply a strengths and resource-based approach in which members will utilize their identified strengths and resources to leverage their expertise and engage in collaborative work
- iv. This work will be based on current research and practices, and sex positive (open, communicative, and accepting of individuals' differences related to sexuality and sexual interests) approaches, inclusive of all genders and sexualities
- v. Messaging, activities, and events developed for campus communities as part of the Let's Get Consensual campaign will be positive, respectful and non-shaming
- vi. This work will reflect an understanding that some communities are disproportionately affected by sexualized violence. Initiatives will be engaged in to reach populations that current research demonstrates are disproportionately affected by sexualized violence and gender-based and those that are disproportionately responsible for perpetuating sexualized and gender-based violence.
- vii. The goal of this work is to engage the university community in proactive and preventative conversations and actions about sexualized and gender-based

- violence focusing on education and awareness building. Initiatives will be engaged in with the goal that awareness and education about consent and sexualized violence be integrated within the campus culture.
- viii. This campaign will strive to:
- Promote positive messaging around consent that encourages and informs students on how to engage in consensual conversations in all aspects of their campus lives, particularly in interpersonal relationships, and addresses behaviours within the greater context of societal rape culture.
 - Create awareness around issues of masculinity (e.g., privilege, patriarchy, entitlement) on campus and provide representations of positive expressions of masculinity. Encouraging men to be leaders, and to speak out and take an active role in addressing these issues with other men.
 - Recognize and address the different ways in which violence manifests itself within all communities in pursuit of supporting and promoting respect and accountability across campus, where 'seeking help' is normalized.

PART 5: CANNABIS HEMP

- 5.1 The Society supports the decriminalisation of cannabis hemp.

Adopted Referendum 1993/10/14

PART 7: ENVIRONMENTAL SUSTAINABILITY

7.1 Preamble

The Society recognises that the earth is not being cared for in a sustainable manner, and that we play a role in environmental degradation. We recognise that we must conduct our affairs in an environmentally, socially, and ethically responsible fashion. We are committed to the implementation of sustainable operating practices, and will instil an understanding of the values of sustainability practices to our members through research, education and our own operations.

Adopted SAGM 2001/02/15

7.2 Definitions

There are many ways to define the concepts of sustainability and sustainable development. There is no single, perfect definition of sustainability, rather it should be defined in its use. Sustainability takes into account three interdependent elements: the environment, the economy and the social system. It involves recognising and taking responsibility for our current and future impacts on human activity and the environment, on local and global scales. It means meeting the needs of the present generation without compromising the ability of future generations to meet their needs.

The definitions below are all incorporated into the concept of sustainability.

Alternative/sustainable transportation: Considers all of the competing demands of using any common form of transportation in the context of lessening the impacts of transportation habits on the local and global environments. Some examples are the interrelationships between: parking lot fees, contribution of exhaust to degradation of biosphere and decreased public health, public transit access and use, number of enclosed bike racks, pedestrian safety, etc.

Beyond Climate Neutral: A state in which the positive impact a person or institution has on the global climate system outweighs its negative impact.

Ecological footprint: The ecological footprint measures human impact on nature. It shows how much productive land and water we occupy to produce all the resources we consume and to take in all the waste we make.

Environmental Health: Refers to the optimal state of well-being of the animate and inanimate elements that exist around us. It recognises the fact that humans, like all matter of life, are connected directly to the environment in which they exist. To harm our environment is to harm ourselves and it is therefore in our best interest to protect the environment in which we live, ranging from a small office space we occupy to the whole earth we live on. Environmental health emphasises the common ground between achieving health and sustainable development. It focuses on the economic and environmental determinants of health, and on the means by which economic investment should be guided towards producing the best population health outcomes, greater equity in health, and sustainable use of resources.

Interdisciplinary: Involving two or more academic disciplines. An example of this would be a political science class dealing with environmental issues.

Lifecycle cost: An economic, environmental and social evaluation technique that accounts for the cradle-to-grave environmental consequences/impacts of a product, process, or service.

PART 8: HOUSING

8.1 On-campus housing

The Society supports:

- I. High quality, affordable on-campus student housing for all that need it.
- II. Residence buildings that are fully accessible for students with disabilities.

- IV. Publically owned and operated student residences.
- V. Pegging maximum annual rent increases to CPI regardless of individual student tenant turnover.
- VI. Residences that cater to the needs of student parents.

The Society opposes:

- II. Privatization of student housing, including administration and management, and public-private partnerships.
- III. Profit-generation from campus student housing of any kind, including international students' residences.

The Society opposes:

- I. Increases to the standard allowable rent increase that are above CPI.
- II. Landlords using students' (and international students in particular) lower knowledge of, or confidence with, tenants' rights to sidestep the Residential Tenancy Act or otherwise intimidate student tenants.

PART 9: POST-SECONDARY EDUCATION

9.1 Preamble

The Society is committed to universal access to post-secondary education. The Society supports the International Covenant on Economic, Social and Cultural Rights - signed and ratified by the Canadian Government in 1976 - which recognizes education at all levels as a basic human right and that "higher education shall be made equally accessible to all, on the basis of capacity, by every appropriate means, and in particular by the progressive introduction of free education."

9.2 Indigenous Right to Education

All levels of government have a role to play in reconciliation and we call on the Province of British Columbia to play an active role in this process. It is Indigenous Peoples' Treaty and Aboriginal right to attend all educational institutions built on unceded and unsurrendered Indigenous territories. However, Indigenous students currently pay increasingly high tuition costs in BC and the funding available from the federal government through the Post-Secondary Student Support Program (PSSSP) has lagged behind tuition fee increases and growing numbers of Indigenous youth for years.

Therefore, the Society calls on the Provincial Government and Universities to recognize the Aboriginal Right of First Nations (status and non-status), Metis, and Inuit to Education guaranteed by the Treaties and the Royal Proclamation. The Society calls on the Provincial Government to take a leadership role in reconciliation by immediately waiving tuition fees for all Indigenous Peoples attending post-secondary institutions in the province of British Columbia.

The Society asks that the Provincial government:

- 1. Recognize the role of provincial governments in reconciliation with Indigenous Peoples.
- 2. Issue a mandate to Post-secondary institutions to honour First Nations Treaty and Aboriginal right to education by immediately waiving tuition and fees for Indigenous students.

9.3 Academic Materials

Preamble

The true cost of post-secondary education is composed of many factors besides tuition, including academic materials. Over the past decade the cost of academic materials has continued to rise beyond the rate of inflation. Book publishers have engaged in practices which increase textbook costs such as issuing a new addition of a book with only cosmetic changes.

Many instructors provide course packs of required readings, but the creation of affordable course packs depends successful navigation of Canadian copyright legislation, which protects copying for individual use but not for teaching purposes. Many universities have facilitated production of

course packs in paper and digital form through agreements with Access Copyright, a licensing agency which offers advance permission to copy a variety of works for academic purposes for a one-time fee.

An increasing amount of materials used by teachers are not covered under Access Copyright, and the organization's fees have also risen substantially over the years. As a result, a number of Canadian universities, including the University of Victoria, have decided to discontinue use of Access Copyright. Under current copyright legislation, this may result in delays in producing course packs, increased costs and unavailability of some materials.

Access to alternate format materials is also a concern. Unless students with disabilities request their texts in alternate format several weeks in advance this results in a delay in receiving the texts which disadvantages these students compared to the general student population.

Policy

- a. Course Packs – the Society encourages instructors to utilize affordable course packs and to make course packs available to students online. Instructors are responsible for ensuring that materials in their course packs are not already freely available to students.
- b. Textbook Editions – the Society encourages instructors to allow students to use an older version of a textbook where the information it contains does not differ significantly from the latest edition, and to notify students that such an option is available. The Society opposes the issuing of new editions of textbooks with only cosmetic changes.
- c. Online Components – the Society opposes the use of mandatory online components in textbooks where the online component uses a one-time subscription forcing students to purchase a new textbook for the course.
- d. Copyright Reform – the Society supports the expansion of fair dealing rights in Canadian copyright law to include teaching and research as well as personal use.
- e. Textbook Taxation – the Society supports elimination of sales tax on textbooks.
- f. Book Importation Regulations – the Society supports amendment of the Canadian Book Importation Regulations to eliminate price premiums on imported textbooks.
- g. Textbook Rentals – the Society supports expansion of the university's textbook rental program with rental prices of no more than 50% of the cost of the new book.
- h. Alternate Format Texts – the Society supports provision by the University of alternate format texts and course materials in a timely manner to students who require them. The Society believes that publishers should offer their complete line of textbooks in alternate as well as conventional formats to promote accessibility.
- i. Selection of Course Material – the Society believes that it is the responsibility of instructors and the university to consider the best interests of students in the selection of course material, balancing concerns of quality, affordability of materials and appropriateness.
- j. University and Instructor Accountability – the Society supports University policies which hold professors accountable for the affordability and quality of the materials in their classes. The Society believes that, except in cases where research is limited to professors' work, the assignment of course materials through which the professor can directly financially gain is a conflict of interest and should be sanctioned. The Society strongly opposes either the University or individual professors receiving personal benefits from textbook publishers against the interests of students, and supports sanctions

against professors who are found to collude with textbook publishers.

- k. Intellectual Property – the Society opposes attempts at monopolization and price gouging for use of protected work in the academic environment, and will lobby the university and both levels of government for more regulation of the textbook and academic journals industry.

9.4 Curricula

- a. The Society supports the development and implementation of a mandatory course or part of the curriculum focusing on issues around racism, sexism, homophobia and classism.

9.5 Funding

a. Federal

- i. Transfer Payments – the Society supports the negotiation of a dedicated transfer payment for post-secondary education between the provincial and federal governments, particularly if the terms of that transfer payment include standards and evaluation practices to ensure fair access, affordability and quality nationwide.
- ii. Research and Capital Funding – the Society believes the federal government has the primary responsibility for providing research and capital funding. The Society supports programs to fund undergraduate and graduate research opportunities.
- iii. Grants – the Society believes that the best tool to promote accessibility to post-secondary education is a needs-based grants program. The Society supports the needs-based grants program of the federal government and will lobby for further shifting of funding from tax credits, loan reduction and other sources towards a larger up-front grants program federally.
- iv. Indigenous Students – the Society opposes any cap on student support for Indigenous students (First Nations, Inuit, Metis and non-status students) that fails to meet the needs of all students who would not otherwise be able to attend. The Society will lobby for the elimination of 2% cap on the Post-Secondary Student Support Program.

b. Provincial

- i. Operating Funding – the Society supports the funding of post-secondary education above the national average for total Full Time Equivalent (FTE) grants. The Society strongly opposes any attempt to reduce per-student FTE. The Society believes that funding levels must, at a bare minimum, keep pace with the Consumer Price Index (CPI).
- ii. Capital Funding – the Society believes the provincial government is responsible for ensuring that any demands put on the university system for physical growth are supported, in partnership with the federal government. The Society supports reinstating the maintenance capital funding formerly provided by the provincial government.

9.6 Governance

- a. The Society supports significant student representation on all levels of university governance.

- b. The Society supports the democratization of all positions on the Board of Governors, with at least one-third of the voting members being student representatives and a majority of voting members being student, staff and faculty combined.

Adopted AGM 1995/10/25

- c. In recognition of students' rights to organise a representative student union and to have dues, duly authorised by the student union, collected and remitted to the student union, the Society supports amending Section 27 (1) of the Universities Act to clarify that educational institutions will collect and remit to student organisations all student fees duly authorised in accordance with their organisations' constitution.

Adopted SAGM 1998/02/12

- d. The Society supports the Canadian University Faculty Association's boycott of the Technical University of British Columbia until such time as an elected senate of academic representatives, students and peers is put in place.

Adopted SAGM 1998/02/12

9.7 International Students

- a. The Society supports the elimination of differential fees for visa students.

9.8 Quality

Preamble

Instructional quality is one of the most decisive factors in the quality of undergraduate education. Outstanding undergraduate instruction reflects positively on every aspect of the university, and requires effective communication and interaction between and among students and instructors as well as funding, attention and innovation on the university's part.

In Canada, educational quality standards are set at the provincial level. BC is the only province in with a provincial seal of quality for post-secondary education, with standards set by the Ministry of Advanced Education. Greater collaboration between provincial governments would encourage national data gathering and consistency in educational quality across Canada while respecting regional differences. To be effective, quality assessment must serve the diverse needs of students, institutions and the public, must foster a process of continual improvement and must reflect the perspectives of all stakeholders. This includes meaningful participation of students in the setting of standards and inclusion of a broad range of indicators that measure all dimensions of a student's educational experience.

Policy

a. University Responsibilities

- i. Teaching Quality – the Society will actively support and facilitate programs that seek to improve pedagogical technique for professors and instructional quality for undergraduates. The Society supports a mandatory course on teaching for all first-time instructors of undergraduate courses.
- ii. Evaluation of Teaching – the Society encourages the development of effective student teaching evaluation mechanisms.
- iii. Lab and Tutorial Quality – the Society believes that labs and tutorials should be of optimal size for students' interaction and learning. The Society believes that lab equipment should be up to date and sufficient for students' needs.

- iv. Data Collection – the Society believes that universities should work with the provincial government to ensure that data collection on post-secondary education yields high quality results while remaining efficient and cost-effective.

b. Government Responsibilities

- i. Pan-Canadian Accord – the Society believes that the federal and provincial governments should be coordinating their efforts to ensure high-quality, accessible, and affordable education in Canada. The Society supports the negotiation of an agreement between the provincial and federal governments to create a dedicated transfer payment, and a system of standards, goals and a federal evaluation body.
- ii. Accreditation – the Society supports the establishment of outcome measurements for all post-secondary programs to allow for a baseline measurement of quality nationwide, including in non-professional programs.
- iii. Evaluation BoDy – the Society believes that spending on post-secondary education should be carefully accounted for, and clear benchmarks should be put in place by which the quality of universities can be audited. The Society supports the creation of an inter-governmental BoDy to coordinate educational policy, benchmarks and collection of data.
- iv. Benchmarks – the Society supports the adoption of international benchmarks for the evaluation of post-secondary education such as those in use by the OECD.
- v. Recognition of Teaching Excellence – the Society believes the federal and provincial governments should facilitate the improvement of educational quality at universities. The Society supports the creation of a Canada Teaching Chair program focused on excellence in teaching and paralleling the Canada Research Chairs.

9.9 Student Awards and Financial Aid

- a. Needs Based Awards – the Society supports increasing the number and value of needs based awards offered by the University of Victoria. The Society supports inclusion of a financial need component in all awards funded directly by the University (as opposed to endowed awards contributed by donors.)
- b. Equity – the Society supports increasing the number of awards targeted to populations who have traditionally faced barriers to university education, including but not limited to indigenous students, visible minorities, students with disabilities and students who are single parents.
- c. Funding – the Society supports the University increasing total and per student funding of student financial aid. The Society opposes any decrease of funding for student financial aid as a result of operating budget cuts.

9.10 Student Loans

- a. Governance – the Society supports the consolidation of federal and provincial efforts to deliver student loan programs in all provinces. The Society supports student participation in the formal governance and evaluation of the student loan program.
- b. Eligibility – the Society believes that all students with financial need should be able to access student loans. The Society supports the reform of income requirements including the elimination of parental and spousal contributions, non-liquid and necessary assets and institutional needs-based awards from student loan eligibility calculations.

- c. Loan Disbursement – the Society believes that maximum disbursements for loans should be based on accurate, regularly updated data on educational expenses and the cost of living. When maximum disbursements fall below these expenses, the Society will lobby for increases to disbursements.
- d. Internships and Part Time Students – the Society supports expansion of the student loan program to accommodate the diversifying needs of students and allow for internships and part-time status without considering the student to have left school.
- e. Repayment Structure – the Society supports extending the grace period in which students do not have to commence repaying their loans until twelve [12] months after graduation. The Society supports restructuring of payment with interest forgiveness for students who are unable to find gainful employment after that time.
- f. Interest Rates – the Society believes that the poorest students, the ones who take on student loans, should not be made by the government to pay additional costs for their education above and beyond those students who had access to personal or parental savings. The Society supports the complete elimination of interest rates on student loans as a measure to increase affordability. The Society supports extending the interest free grace period on student loans to twelve [12] months after graduation.
- g. Loan Reduction – the Society supports measures to forgive student loan debts for students who lack the means to pay for them. The Society also supports reducing the statute of limitations on student loan debt.
- h. Income Contingent Loans – the Society opposes the creation of Income Contingent Loan Repayment programs.

9.11 Trade

Preamble

Beginning with the 1988 Canada-US Free Trade Agreement, which was expanded as the North American Free Trade Agreement in 1994, Canada has pursued, and continues to negotiate, trade liberalization deals with a variety of countries. Unfortunately, international trade liberalization agreements have the potential to threaten the integrity of our public post-secondary education system. Universal obligations such as most-favoured nation treatment and specific obligations such as market access and national treatment may lead to restriction of government funding and regulation and ultimately privatization of the education sector. Exemptions should be made within trade agreements to protect Canada's public post-secondary education system.

Policy

- a. Trade Agreements – the Society believes post-secondary education should be excluded from any proposed international trade agreements. The Society advocates that the federal government negotiate strenuously to strengthen and clarify the exemption clause in proposed trade agreements relating to services supplied in the exercise of governmental authority to protect post-secondary education.

9.12 Tuition

Preamble

Tuition rates in British Columbia have risen significantly over time. During the 1990s tuition levels were frozen by the provincial government. When the government deregulated tuition in 2002, post-secondary institutions across BC saw massive tuition increases, including a 25% hike in one

year at the University of Victoria. By the time tuition regulation was re-imposed in 2005, rates had doubled at many institutions. Under the BC Tuition Limit Policy established in September 2005, increases to tuition levels are now capped at the rate of inflation. This cap also applies to mandatory non-instructional fees such as building fees and technology fees. In 2010 the University of Victoria attempted to exempt an increase to athletic fees from this policy for the purpose of constructing a new athletic facility, but the BC Ministry of Advanced Education denied approval.

Clearly, history has demonstrated that tuition fees must be regulated in order to prevent drastic increases with short-term notice which may seriously impact prospective and current students. Universities must balance their desire to offer new programs and facilities with their mandate to provide accessible public education. The provincial government for its part must prioritize and adequately fund post-secondary education Policy.

- a. **Fair Tuition Policy** – the Society supports a provincial fair tuition policy which:
 - i. Provides long-term, sustained base operating funding for our universities that will be protected from negative changes in the government’s financial situation;
 - ii. Protects tuition from increasing due to fluctuations in funding grants to the university from the government;
 - iii. Ensures tuition levels are predictable;
 - iv. Has as its primary indicator of affordability the ability of students to pay without having to resort to loans;
 - v. Recognizes that tuition is only one of the costs of pursuing a post-secondary education; and
 - vi. Ensures that no student will ever be denied the opportunity to pursue post-secondary education because of their inability to pay.
- b. **Deregulation** – the Society opposes any attempt to deregulate tuition in BC, including mandatory non-instructional fees.
- c. **Tuition Limit Exemptions** – the Society opposes the granting of exemptions from the Tuition Limit Policy to universities, including exemptions of mandatory non-instructional fees.
- d. **Tuition Tax Credits** – the Society advocates that the provincial and federal governments eliminate undergraduate tuition tax credits and direct the funding toward up-front, needs-based grants for post-secondary students or to student loan forgiveness.
- e. **Tuition Fee Elimination** - The Society supports a freeze of tuition fees and supports the total elimination of tuition fees.

PART 10: SOCIO-ECONOMIC BARRIERS

10.1 Preamble

Post-secondary education is increasingly a necessity for participation in the labour market. The defining difference between those who have a post-secondary education and those who are forced into low-paying, low-skilled work is financial resources. Upfront financial barriers, namely tuition fees, reinforce a profound participation disparity among Canadian families. Statistics Canada calculates that students from families with incomes in the lowest quartile are half as likely to participate in university as students from families with top quartile earnings, thereby creating an accessibility gap among individuals from different socio-economic background particularly women, Indigenous folks, queer folks, trans folks, people with disabilities and people of colour who are disproportionately affected by this barrier.

10.2 Policy

- a. The Society acknowledges the accessibility gap in Canada's universities and colleges as being driven by the high cost of a post-secondary education, particularly for low-income families.
- b. The Society supports an accessible system of post-secondary education where any interested individual, regardless of socio-economic status, is able to participate in the post-secondary education of their choice without incurring debt.
- c. The Society is opposed to the reduction of funding to social programs in Canada.

PART 11: PUBLIC TRANSPORTATION

11.1 Preamble

The Society recognizes the inextricable relationship between the planning of transportation systems and issues of sustainability, public safety and affordability. The Society is committed to working closely with transportation stakeholders and decision-makers to ensure that students have full access to affordable and sustainable modes of transportation that serve their needs. This view encompasses not only the campus itself, but students' access to affordable housing.

The Society recognizes that public transportation is funded on different levels, including but not limited to a public cost basis (such as a transit authority, which is funded through a mix of user fees and taxes), a cooperative basis (such as a car share or car pool), and a private basis (such as a taxicab service). The Society's primary concern is for public funding of the regional Victoria mass transit system through a variety of measures, including the U-Pass program operated in concert between the Society, the University of Victoria and BC Transit. However, the Society also supports a wide range of other transportation measures laid out in this policy on the basis that a good transportation system, both in the region and between regions, provides flexibility and choice for students.

11.2 Definitions

Inter-regional Transportation: Transportation systems which convey people between regions that encompass long distance buses, trains, airlines and ferries.

Mass Transit: A public transportation system that aims to move large numbers of people, encompassing bus transit, bus rapid transit and light rail transit.

Public Transportation: A shared transportation system, which conveys people as an open service.

Regional Transportation: Transportation systems that convey people within a defined region (in this case, Greater Victoria) that encompass mass transit, car pooling, car sharing, taxicabs, bicycle infrastructure and bike sharing systems.

Smart growth: An urban planning and transportation theory that concentrates growth in compact walkable urban centers to avoid sprawl and advocates compact, transit-oriented, walkable, bicycle-friendly land use, including neighborhood schools, complete streets, and mixed-use development with a range of housing choices.

UPASS (or Universal Bus Pass): A semesterly bus pass issued to all UVic students based on an agreement between BC Transit, the University of Victoria Students' Society and the University of Victoria. Through this contract, the Society recognizes its responsibility as a major funder of regional mass transit to work closely with its partners for the maintenance of the system.

11.3 Mandate

This policy sets the Society's position on the issue of public transportation. The Society is committed to:

- a. **Affordability** – the Society believes students should have no financial barriers to public transportation, and will take steps that increase the affordability of transportation options regionally and inter-regionally.
- b. **Accessibility** – the Society believes that public transportation systems should be accessible to all students, and will regularly consult with students with disabilities on campus to incorporate their concerns into the Society's efforts to influence the regional and inter-regional transportations systems.

c. Funding of Public Transportation

- i. **Federal Responsibility** – the Society will lobby the Federal government to assist the regional and inter-regional transportation system used by students by helping fund capital-intensive programs that are necessary for affordability and sustainability, but would otherwise be difficult to fund.
- ii. **Provincial Responsibility** – the Society will lobby the Provincial government to provide public transportation capital and operating funding to regional transit in Victoria. The Society will encourage the Provincial Government to fund the operating costs of public transportation from government revenues derived from existing and future levies on carbon emissions, fossil fuels, and private vehicle ownership.
- iii. **Regional Responsibility** – the Society will lobby local and regional governments to fund public mass transit at a sustainable level, including appropriate funding amounts from gas taxes and property taxes. The Society recognizes the impact of property taxes on residents with fixed incomes, but also notes that such residents tend to have the greatest access to the transit system through the BC Bus Pass Program. For this reason, the Society's position is that transit systems should not be funded only by property taxes.
- iv. **University of Victoria Responsibility** – the Society believes that the University has a responsibility to ensure that transportation infrastructure on campus is maintained in cooperation with local government and transportation authority. The Society will also continue to work closely with the University to facilitate alternative modes of transportation, particularly
- v. **U-PASS** – the Society supports the continuation of the U-PASS program under the existing funding formula.
- vi. **User fees** – the Society recognizes the importance of balancing taxpayer money and user fees in the funding of public transportation systems. However, the Society will lobby governments to recognize the limited financial ability of students, and ensure that funding formulas rely more heavily on public funding.

d. Positions on Modes of Public Transportation

i. Mass Transit

- **Bus Rapid Transit** – the Society will lobby transit authorities and regional

governments for the implementation of bus rapid transit systems that directly serve the university, including but not limited to, articulated or double-decker buses, dedicated bus lanes or high-occupancy vehicle lanes, bus priority intersections, express bus routes, and off-bus fare collection to decrease loading times.

- **Light Rail Transit** – the Society will lobby transit authorities and various levels of government for the implementation of light rail transit in the region, including both on-road and off-road systems, with a primary goal of integration with the campus.
- ii. **Bicycling** – the Society will lobby the regional governments to better integrate the UVic campus into regional bicycle infrastructure planning, and dedicate more resources to providing bike lanes and bike trails on routes to the University.
- iii. **Bicycle Sharing** – the Society supports both government and private-sector efforts to establish bike sharing programs, and integrate them with other campus services.
- iv. **Car pool and car share** – the Society will work with the University and regional governments to provide incentives for car-pooling to and from the university and integrate them with other campus programs.
- v. **Inter-regional transportation**
 - **Discounts** – the Society will lobby public and private corporations that provide inter-regional transportation to extend discounted prices to post-secondary students.
 - **Under-serviced areas** – the Society will lobby the Provincial government to promote more sustainable and affordable inter-regional transportation options, particularly to under-serviced communities on Vancouver Island and the Interior.

e. Safety

- i. **Campus and Community** – the Society will continue to push for more and later late night bus service in order to increase the safety of students studying late on campus and working downtown.
- ii. **Violence and Crime** – the Society will work with BC Transit and anti-violence organizations to ensure that buses are safe spaces for all riders. The Society will consult with Campus Security to keep abreast of any emerging safety and property security issues on the University campus.

f. Sustainability and Smart Growth

- i. **Reducing Emissions** – the Society supports integration of climate change goals into the design of transportation systems. The Society supports the purchase of low emissions and emissions-free vehicles in the regional transportation systems.
- ii. **Walking and Biking Communities** – the Society supports planning multiple town centres in each regional municipality with essential public and commercial services within walking or biking distance.
- iii. **Density** – The Society will lobby local governments to use instruments such as regional growth policies and selective zoning in order to ensure high density areas with student housing can grow and will be properly integrated with adequate transportation to the University.
- iv. **Developer responsibility** – the Society will lobby local governments to develop programs with residential and commercial developers to incorporate public transit and student housing into their projects. The Society supports development levies that take public transportation into account.

In accordance with the Convention, the Society recognizes that persons with disabilities have rights to:

- * full and equal participation in cultural life;
- * full and equal participation in recreation and leisure;
- * full and equal access to education;
- * full and equal access to work and employment;

The Society's responsibility includes the responsibility to ensure that all goods, services, buildings, structures, premises, programs, projects, events, meetings, and communications are accessible. To meet this obligation, the Society will develop an accessibility plan that will establish goals towards improving accessibility.

1.2 Principles

The Society's policies on accessibility are guided by the principles of dignity, independence, accessibility, and equal opportunity.

Dignity - Dignity means providing services so that persons with disabilities maintain their self-respect and the respect of other people. Communication with persons with disabilities shall be done in a respectful manner which takes into account their disability and maintains their dignity. Respect for dignity includes minimizing the stigmatization of persons due to their disabilities and refraining from using communications that deploy ableist terms (terms that discriminate in favour of able-bodied people) to describe persons with a disability and their ability to contribute and participate in the Society's activities.

Independence – Independence means ensuring that people are able to do things on their own without unnecessary help, or interference from others.

Accessibility - Accessibility means providing service in a way that allows the person with a disability to benefit from the same services, in the same place and in the same or similar way as others.

Equal Opportunity - Equal opportunity means having the same chances, options, benefits and results as others. In the case of services, it means that persons with disabilities shall have the same opportunity as others to benefit from the way you provide goods or services.

1.3 Scope

This policy shall apply, in its entirety, to the Society's staff, volunteers, contractors, visitors, and guests.

The full definition of disability, as stated by the provincial government, is:

The parties agree to cooperate in the identification and removal of systemic barriers in the selection, hiring, training and promotion of persons with disabilities. In addition, the parties agree to cooperate in the identification and implementation of steps to improve the opportunities, employment status and participation rates of this group. It is understood that none of these actions will be at variance with the Collective Agreement unless mutually agreed upon between the parties.

1.6 Harassment

The Society shall identify the following as harassment within its anti-harassment policies:

- The stigmatization of persons with disabilities; and
- Ableism (discrimination in favour of able-bodied people).

1.7 Feedback Process

The Society is committed to providing high quality goods and services to all members of the public it serves. Feedback is welcomed as it may identify areas that require change and encourage continuous service improvements. Therefore, the Society shall regularly solicit feedback concerning disability-related issues as they relate to goods and services provided by the Society.

1.8 Policy Review and Renewal

The Society is committed to developing service policies that respect and promote the dignity and participation of people with disabilities. Therefore, no changes will be made to

2.2 Communication

The Society shall strive to communicate with persons with disabilities in ways that take into account their disability. This means that the Society will communicate in ways that enable persons with disabilities to communicate effectively for the purposes of using, receiving, and requesting the Society's goods, services, and facilities.

The Society shall fund 100% of the cost for the provision of accessible formats and communication supports for persons with disabilities for all Society meetings, such as but not limited to General Meetings, Board of Directors meetings, Clubs Council and Course Union Council meetings, and speaking events. The Society requires a minimum of two [2] weeks notice to provide this support. If shorter notice is given, all reasonable efforts will be made to provide necessary supports. A line item in the UVSS annual budget shall be created for this purpose.

2.3 Assistive Devices

Persons with disabilities are permitted to use personal assistive devices to access goods and services offered by The Society.

An assistive device is any device that is used, designed, made, or adapted to assist a person in performing a particular task. Assistive devices enable persons with disabilities to do everyday tasks such as moving, communicating, reading, or lifting.

Examples of assistive devices include, but are not limited to the following:

- Wheelchairs
- Canes
- Walkers
- Assistive listening devices (FM systems)
- Laptops with screen-reading software or communicating capabilities
- Smart phones (i.e. wireless handheld devices)
- Hearing aids
- Global positioning system (GPS) devices
- Digital audio players
- Teletypewriters (TTY)
- Portable oxygen tanks

- Personal digital assistants
- Communication devices, such as voice-output systems or pictures/symbols

The Society allows assistive devices to be permitted in all areas of the Student Union Building to which students, staff, faculty, and the public normally have access.

2.4 Accessible Food Services

The Society is committed to providing safe and accessible food options for persons who have specific food-related health conditions and disabilities.

2.5 Service Animals

Persons with disabilities are permitted to use licensed service animals to access goods and services offered by the Society.

A licensed service animal is any guide dog or animal individually trained by a professional service animal training organization to assist a person with a disability. An animal is a service animal if it is readily apparent that it is being used by a person for reasons relating to her or his disability - or if the person has a letter from a physician verifying that the animal is required for reasons relating to her or his disability. Licensed service animals include licensed emotional support service animals.

Licensed service animals are permitted in all areas of the Student Union Building premises to which students, staff, faculty, and the public normally have access.

There are a few exceptions where a service animal would be excluded by law:

The Health Protection and Promotion Act (1990) does not allow animals in places where food is manufactured, prepared, processed, handled, served, displayed, stored, sold or offered for sale. Therefore, a sign should be placed in food handling areas notifying persons that service animals are not permitted.

However, the Health Protection and Promotion Act does contain specific exemptions for licensed service dogs only, allowing them to accompany their owners into areas where food is normally served, sold or offered for sale.

Should municipal by-laws restrict certain breeds of animals or dogs from the municipality and these by-laws apply even if the animal is acting as a service animal. In unique situations where the presence of the animal presents a significant risk for another person (e.g. severe allergies), the Society is required to meet the needs of both persons in these situations and must devise an accommodation plan that enables both persons to access services and goods accordingly.

2.6 Support Persons

Persons with disabilities are permitted to use support persons to access goods and services offered by the Society. When a support person accompanies a person with a disability to an event hosted by the Society for which there is an admission fee, the support person will not be charged admission.

A support person is someone either hired or chosen to help a person with a disability. A support person can be a personal support worker, volunteer, family member, spouse, or friend of the person with the disability. The Society believes that a support person, in some cases, does not necessarily need to have special training or qualifications.

Support persons may provide one or more types of assistance.

- Transportation
- Job coaching
- Guiding a person with a vision loss
- Adaptive communication (e.g., Intervener for someone who is deaf/blind)
- Interpretation (e.g., ASL/English interpreter, LSQ/French interpreter)
- Note-taking, scribe or reading services (usually coordinated by disability or library services offices)
- Personal care assistance including emotional support
- Support persons in the event of a seizure (e.g., protect from falls)
- Interpret and speak on behalf of someone with a speech disability
