## UVSS AUDITED FINANCIAL STATEMENT 2021-2022

- The Audited Financial Statement
- The UVSS is found to be in good financial standing and have complied with Canadian accounting standards for not-for-profit organizations.

To the members of the University of Victoria Students' Society

### Opinion

We have audited the financial statements of the University of Victoria Students' Society, ("the Society"), which comprise the statement of financial position as at April 30, 2021, and the statements of operations, changes in fund balances, and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of University of Victoria Students' Society as at April 30, 2021, and its results of its operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

# UVSS BUDGET 2021 - 2022

## UVSS GLOBAL BUDGET 2021-2022

- The global budget is a document that shows the priorities of the Board; however, it is a live document and is subject to change.
- The UVSS runs an operating surplus when it spends less than the revenue generated and an operating deficit when it spends more than it receives. A cumulative surplus (or deficit) is a number that represents what is left over if you add up every past year's operating surplus or deficit.
- As a registered non-profit society, the UVSS cannot budget for on-going surpluses. Brackets around the specified dollar amount indicate a deficit
- Advocacy and affiliated groups generate additional revenue beyond the undergraduate student membership fees listed in this budget. These include: continuing studies and graduate student fees, donations, ticket and swag sales, and the collective “constituency groups” account.

\*Main Kitchen, Bean There, Health Food Bar, and The International Grill budgets and audited financial statements have not been broken out on the global budget previously; however, past years will be included for the first time in the fall of 2020.
